Sir:

The following preliminary amendments and remarks are respectfully submitted in connection with the above-identified application.

IN THE SPECIFICATION:

Please replace the paragraph beginning on page 9, line 4, with the following rewritten paragraph:

81
--It is another object of the present invention to provide a video storage type communication device which has a specially reproducible video generating portion comprising a decoding portion for decoding coded video data received through a receiving portion and a still-picture coding portion for coding the video information restored by the decoding portion by a still-picture coding method, making it possible to simply reproduce moving picture in forwarding and reversing directions even at a terminal which has no ability of decoding a H.261 class moving picture.--
